
Not To Scale

Some of the popular attractions to be enjoyed on your visit to Litchfield National Park are described briefly below. The majority of attractions are easily accessible by two-wheel drive on sealed roads - some of the more remote attractions are accessible only by four-wheel drive vehicles. Visitors should also be aware that some of these attractions may not be accessible during the wet season months of November through to April.

1 Magnetic Termite Mounds
A major attraction soon after entering the park are the numerous gigantic termite mounds. The magnetic termite mounds, standing up to two metres in height, face north-south in orientation. This controls the temperature throughout the day by exposing the least amount of surface area to the sun. **Toilet facility available.**

2 Buley Rockhole
A series of small waterfalls and rockholes provide the perfect place to cool off and relax. A walking track leads from Buley Rockhole down to Florence Falls. A small campground with toilet facilities only is located at Buley separated from the day-use area. **Camping permitted, fees apply. Toilet facility available.**

3 Florence Falls
A spectacular double waterfall set amid monsoon rainforest. A nearby viewing platform is ideal for sightseeing and photography. The area has a campground with showers and toilet facilities. **Camping permitted, fees apply. Toilet facility available.**

4 The Lost City
Approximately 8km off the main Litchfield Park Road is the impressive sand stone pillars reminiscent of ruins from a long lost civilisation. Accessible on a rough track by four-wheel drive only. **Open May to November - seasons permitting.**

5 Tabletop Track
A long distance 39 kilometre circuit bushwalk suitable for experienced bushwalkers only.

6 Tolmer Falls - Viewing platform and trail
One of the most spectacular falls, cascading over two separate escarpments into a distant plunge pool where several colonies of rare and protected Ghost Bats and Horseshoe Bats live. **No public access to the plunge pool. Wheel chair access and toilet facility at the lookout point.**

7 Blyth Homestead
Just off the Reynolds River four-wheel drive track to Tjaynera Falls (Sandy Creek) is the old Blyth Homestead built in 1929 by the Sergeant family as an outstation to the main Stapleton Homestead. Blyth Homestead was abandoned in the 1960s and is preserved for visitors, complete with excellent interpretive signs depicting local history.

8 Tjaynera Falls / Sandy Creek
Nestled in an open valley, luxuriant with paperbarks, relax and enjoy the usually uncrowded plunge pool. Accessible by four-wheel drive only the falls are 9km from the southern access track. **Open May to November - seasons permitting. Camping is available with toilet and shower facilities.**

9 Surprise Creek Falls
Approximately 26km off the Litchfield Park Road by four-wheel drive only is the southern access turn off to Surprise Creek Falls. A short walk through shady monsoon forest leads to a large tranquil pool and pleasant waterfalls for a swim. **Camping permitted, fees apply. Toilet facilities available.**

10 Greenant Creek to Tjaetaba Falls
Allow one and a half hours for this 3km return walk. Picnic tables near the creek make a good place to stop for a break before taking the climb to the top of Tjaetaba Falls. Once at the top, cool down with a swim in the top pools. The falls and the area below are an Aboriginal sacred site - swimming downstream is prohibited. **Toilet facilities available.**

11 Wangi Falls
The park's most popular visitor attraction due to a large freshwater pool fed by two high falls and easy access. An interpretive walk commences near the pool and is an excellent opportunity for photography. Allow one hour for the 1.6km return walk. Wangi Centre, cafe and campground has amenities including toilets, showers, and free gas BBQs. **Camping permitted, fees apply. Toilet and solar hot water shower available. Wheelchair access.**

12 Cascades
A year-round waterhole suitable for swimming featuring an all-weather access road to a new carpark and grassland viewing platforms. A walking trail from the picnic area to the top of Cascades. **Toilet facility avaliable.**

13 Walker Creek
Allow two hours for this 3.5km return walk. The trail leads up to a shared picnic area with the opportunity for a cooling swim in a crystal clear pool. Eight camping sites are available along the trail - these must be pre-booked on the reservation board. Picnic areas are located across from the carpark for the benefit of day visitors. **Camping permitted, fees apply. Toilet facility available.**

14 Bamboo Creek Tin Mine
Easily accessed and just a short walk from the carpark to the ruins of the abandoned mine. Tin was mined on a small scale from 1906, however adverse conditions for transportation and unfavourable wet season rains brought the mine to a closure only two years into its service.
