Map of Campaspe Region

Tongala Area Information

Tongala is located between Echuca and Kyabram, and is the main service centre for its immediate rural community. The town is well serviced with many community recreational & sporting facilities.
Agriculture, especially dairying, is the most significant industry in the town. Dairy related businesses including food processing, grain processing and an abattoir are important employers for the Tongala community.

Tongala was named by Edward Mickelthwaite Curr (1820-1889) in 1841, who at the time held a station that stretched to the Murray River. Tongala is the Aboriginal name for local section of Murray River. Curr wrote a book on his interaction with the aborigines, with many extracts quoted in the Yorta Yorta land rights court case.
