Convenience

- There are not many places along the bay that offer the convenience of having your ceremony on the sand, yet still be walking distance to your reception venue.
- Enjoy the benefits of having your beach ceremony and reception in the same location such as...
 - Your family and friends are not troubled by the need to move venues and can get straight into 'party mode' as they don't need to disperse after the ceremony. This adds great atmosphere to both your ceremony and reception and makes the day easy and enjoyable from your guests' point of view.
 - It's advantageous for your bridal party as you can have your professional photos at the idyllic foreshore and Frankston pier. This means you have more time to enjoy 'photo time' and are not rushing from location to location.
 - Having a beach ceremony close to *FYC* cuts the cost of needing to pay professional drivers to take your bridal party to photo locations. It also decreases lots of additional organising such as finding photo locations, finding drivers to transport your bridal party, organising photographers to meet at several different locations.

Style

- We are able to offer a tailored colour scheme option to each individual bride, so they can match their ceremony and reception package to their bridal party.
- We offer a range of matching reception and ceremony décor designed specifically for *FYC*.

Accountability

- In2U Ceremonies use quality products; we are continually upgrading and maintaining equipment so our packages are at A Grade standard.
- We are a reputable, well established business that works alongside other award winning wedding venues in both the Bayside and East Gippsland Region.
- *Don't lose your dream bay view ceremony due to rain or wind!* We are outdoor ceremony specialists and provide a back-up plan inside *FYC* in case of last minute inclement weather.
- Our Personalised flyers show you exactly what you will get when you hire our ceremony/reception décor at *FYC*. We have specialised in set ups at this venue hence you can trust that your special day will go exactly to plan.

Take advantage of two local wedding specialists who can make the 'impossible' possible. Have your ceremony on the sand of the beautiful foreshore with the convenience of your reception only steps away. Together we can ensure that you have the perfect beach wedding with the perfect back up plan. Let In2U Ceremonies and *FYC* give you the stunning beach wedding you deserve.
