

# ENVIRONMENTAL SUSTAINABILITY COMMITMENT STATEMENT

**Frankston Visitor Information Centre will continue to be a community leader in environmental sustainability by implementing and demonstrating environmental sustainability thinking and practice in all aspects of our business.**

We embrace our responsibility to the environment and recognise the unique contribution we make to a sustainable future for the people of Frankston, Victoria and beyond.

Our contribution is realised through the expertise, values and commitment of our dedicated staff.

We are committed to:

- Incorporating environmental sustainability into our governance framework, taking into account our environmental risks, responsibilities and organisational capability.
- Reaching challenging sustainability goals and targets around environmental performance and the delivery of green skills training.
- Monitoring and reporting against our environmental performance to key stakeholders.
- Utilising our expertise to build capacity and preparedness in the community to adapt to a low-carbon, clean energy future, in particular as a national leader in green skills training.
- Embedding environmental sustainability thinking and action in all aspects of our work and products.

- Actively engaging with staff, volunteers, suppliers, industry partners and the community around sharing and realising our commitment to sustainability.
- Minimising our environmental foot print through sustainable management of resources including land, water, energy, materials, cultural heritage and biodiversity.
- Preventing pollution and minimising waste.
- Introducing more sustainable procurement approaches.
- Continually improving and learning from our efforts in working towards environmental sustainability.
- Ensuring our activities comply with all relevant environmental laws and policies.
- Modelling best practice in environmental management.
