# Denham Discovery Trail

The streets of  
Shark Bay have  
many stories to tell...

Follow the **Denham Discovery Trail** to explore just a few of them. As you walk, reflect on what it was like in the past. A trip by road would have taken you many days. If you had travelled by sea you could be staying months as shipping was irregular. The streets were made of pearl shell and the stench of the rotting oyster flesh in the town's pogy pots would have been overpowering.

The 2.3 kilometre trail is for walkers only and will take you past sites of interest that will have you thinking about Shark Bay's traditional owners, early pioneers, preachers, pastoralists, pearlers, prisoners and publicans.
