

Beach Smart, Beach Fun; Science of the Surf

WATCH A LIVE DISPLAY!

‘Science of the Surf’ is a visually powerful educational talk that explores how our beaches are formed, featuring a live rip demonstration using the release of purple dye into a rip current.

Enjoy lunch & family friendly beach activities after the presentation.

Panel discussion featuring Dr. Harpreet Singh, the driving force behind the ‘Safely Engaging with Water’ program & special guests from the local surfing community.

ALL WELCOME | BOOKINGS ESSENTIAL
