Look out for regular adventure events or take a guided tour in and around the Gippsland Lakes, or on one of our many rivers.

## The Gippsland Lakes

Australia's largest inland waterway, the Gippsland Lakes, are a network of lakes, marshes and lagoons covering 400sq km, and are separated from the ocean with coastal dunes known as Ninety Mile Beach. Bird and marine life thrive here, with the Burrunan dolphins and pelicans frequenting many locations.

The Mitchell River Silt Jetties are a geographical highlight now claimed as the longest in the world. Drive along the silt jetty out into Lake King with the Mitchell River on one side and lake on the other.

The Lakes are best seen from the water, but can be visited from the shore, using one of four lakeside villages as a base. Hire a boat here, or bring your own, these incredible waterways offer so much, with 40 casual jetties and top amenities on offer. Three coastal parks stand between the lakes and the ocean. This magnificent coastline is just 10 minutes by fast boat from any lakeside village.

While most people visit for the boating and fishing, you can sail, swim, canoe, kayak or relax and take in the energy from the picturesque lakeside towns of Lakes Entrance, Metung, Raymond Island and Paynesville. The region's commercial centre, Bairnsdale, is known as the 'gateway to the lakes', Lindenow is home to the regional food bowl; while the 'Twin Rivers' area comprises the towns of Nicholson, Johnsonville and Swan Reach and is known for its bream fishing on both the Tambo and Nicholson Rivers.

Fish, golf, tour or simply slow down – the Gippsland Lakes will captivate you.
