HMAS Hobart Lookout

7241 Main South Rd, Normanville

Five kilometres south of historic Normanville is beautiful 'Lady Bay'. Not officially named a town, it is the colloquial title given to a settlement of shacks built half a century ago. A long stretch of Norfolk pine trees separates the coast from land providing many choices of picnic spots. Where the road leaves the coast and heads into a gorge you will find a lookout with a memorial to the ex-HMAS Hobart that was scuttled offshore. Here you will find bench seating and a spectacular view.
