WELCOME TO THE HUNTER VALLEY, WONNARUA COUNTRY

The Wonnarua people are the custodians and traditional owners of the land on which we live and work. We pay our respects to elders past, present and future and to their rich history. A dreamtime story from the Wonnarua explains how a spirit called Baiame created the hills and rivers of the Hunter Valley.

STAY

So much more than a place to rest

When planning where to stay in the Hunter Valley, you will be impressed by the choices you have with our broad range of options available to suit the size, budget and style of your event. From affordable comfort to 5-star luxury, whether you need single share, twin share, double share or family-style accommodation, there is a place that is perfect for your group to stay at in the Hunter Valley.

For a large-scale conference, you might like to select villas or hotel rooms at one of the global hotel brands that you know and trust, located in the heart of the wine country. For incentive groups, reward trips or something smaller like a senior management conference, staying at a boutique bed and breakfast will fully immerse your group in the local hospitality our region is known for.

Whatever the style of accommodation you choose, your guests will wake to, and be delighted by, the beautiful landscapes and wildlife that is abundant in the region. Often, because this region offers so much, guests will add a pre or post conference stay to their plans, building personal memories on top of those already great experiences created by your event.

EAT

Where great food meets stunning natural backdrops

Sharing a meal is one of the best ways to get to know each other and build close connections. But, in the Hunter Valley, it's more than that. It's a taste of the country perfectly matched with local wines. It's farm to plate produce, grown onsite and elevated with the finest of ingredients. It's taking locally grown seasonal fruit, vegetables, eggs, honey and olives and creating menus that will impress your guests and create conversations, served against the backdrop of vineyards and stunning mountain landscapes.

With various hatted restaurants across the region, and an extensive range of offsite event venues, your dining experiences will be a highlight of your event. From the award-winning Margan Restaurant with its one-hectare kitchen garden and farm raised chickens and lambs, to the fabulous long lunch at voco Kirkton Park and an outdoor gala dinner catered for by Bimbadgen Estate, the list of culinary delights is endless.

Local chefs will accommodate your dietary requirements whilst tailoring menus to suit different times of the day, whether that be boosting energy levels and firing up brain cells, or a sweet indulgence after a great day of conferencing.

EXTEND YOUR STAY

Make time to breathe

Red wine needs time out of the bottle to breathe and become the best version of itself, and so do your delegates. There's always more to discover in the Hunter Valley but often in the rush of planning a business event, we forget to factor in downtime on either side of the program.

Time spent relaxing in wine country can invigorate the soul and inspire the minds, leaving your guests more productive and engaged when they return to the office. Share these ideas for more experiences with your team so they can plan to extend their time in Wine Country.

Pre and Post conference stays are a chance to gain a new skill or develop a passion. Try **McCaffreys Wines** to blend, bottle and label your own wine, spend a few hours with a golf pro to refine your swing at one of 3 championship courses or unwind in a beautifully curated pasta making class at **Our Italian Table** where dining is part of the fun.
